

Place for fun and relaxation with smiles

Certified NPO Smile of Kids takes on a Crowdfunding Challenge for Creating a place of rest and relaxation for sick children and their families with your support

Target amount : 6 million yen May 27 - July 14, 2023

* Since this project is an "all in" project, the executor will receive the donation regardless of whether or not the target amount is reached.

We support children with illnesses and disabilities, and their parents and siblings. **This year marks the 15th anniversary of our accommodation facility "Lira no le (House of Lila)" for such children and their families.**

During the COVID-19 pandemic, only limited play areas were available for siblings of sick children. Also, families staying at "Lira no le" were spending most of their time in their rooms, due to visitation restrictions at the hospital.

In response to this situation, **we envisaged to build a "relaxation area" in a natural setting on the site.** This idea was also supported by our first user survey result, which indicated approximately 30% of the respondents wished to have such place.

We have launched the "Hill of Lila Project" to continuously improve the environment around the accommodation facility. As the first phase of the project, we are planning to install a "wooden deck space" and a safe detour route from the parking lot.

We thus decided to raise funds through crowdfunding for creating the new symbol of "Lira no le," **with the help of all of us, including our supporters, users, staff, and others.**

Your support will be a power for children and families to face their difficulties. We hope you join the project with your warm support.
